

Improved tool cooling

This partially pre-assembled unit of cooling pumps and piping will increase the water pressure of the cooling system. There will be installed 1 pump for lower and 1 pump for upper tool to get the best cooling result.

Your benefits

- | Shorter forming time
- | Better cooling
- | Improvement up to 5 cycles p. min.
- | Increase tooling life time

Available for machines

RDM 54K	#584_0101 - 0183
RDM 70K	#516_0181 - 0630
